As soon as the water is shut off every joint in this shaft will be thoroughly examined and the necessary repairs made.

Ten millions of gallons in excess of the former supply are still being sent down the east sade of the city, and the great mains in Mott and Elizabeth streets are for the first time filled and under pressure, so that the people in the tenement house districts are not compelled to pump from them as formerly.

When the reservoir is filled this supply

when the reservoir is filled this supply will probably be cut off in a measure so that the draft on it will not be so great as to reduce it to the low level which has been maintained for months.
